Subject: RE: UN-Water Analytical Brief.

Dear Stella Joy,

Thanks for joining us for the Expert Panel earlier this week, it was a very interesting panel with a very fruitful discussion. I would also like to thank you for your feedback on the UN-Water Analytical Brief. I'm pleased to let you know that the Analytical Brief will contain a section exploring the links between ecosystems and water security, given the importance of ecosystems to the global water cycle.

Many thanks as well for the link to the article, which I read with interest.

With kind regards,

Harriet Bigas
